- Shackle Pin: 4mm
- Weight: 32g

Details: The A2036P is a plain bearing version of our classic A2036 dynamic cheek block. The A2036P is made using 100% recycled plastics and the well-known Allen Ultra-Strap. This block also features the A2036-Profix cheek adaptor, which allows for an easy fit to flat surfaces. This block looks very similar to the 30mm dynamic version. To differentiate we have changed the sheave colour to grey.
